DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-13 and 50-60, drawn to allocation of financial instruments, classified in class 705, subclass 37.
- II. Claims 14-49, drawn to creation of financial instruments and storage of information related to financial instruments, classified in class 705, subclass 35.
- III. Claims 61-65, drawn to portfolio management, classified in class 705, subclass 36R.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as creation of financial instruments and storage of information related to financial instruments. See MPEP § 806.05(d).

Inventions I and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention III has separate utility such as portfolio management. See MPEP § 806.05(d).

single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention III has separate utility such as portfolio management. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
